PD-14.1 Transfer ownership

The screenshot shows the ENS domain management interface for the domain `web3examples.eth`. The page is viewed in a browser at `app.ens.domains/name/web3examples.eth`. The domain is currently owned by a registrant with the address `0xEA9a7c7cD8d4Dc3acc6f0AaEc1506C8D6041a1c5`. The domain expires on `2027.01.10 at 02:08 (UTC+01:00)`. The interface includes a sidebar with navigation options like 'My Account', 'Favourites', 'FAQ', and 'About'. The main content area displays the domain name, a 'Disconnect' button, and a 'Learn how to manage your name' link. Below this, there are sections for 'PARENT', 'REGISTRANT', 'CONTROLLER', 'EXPIRATION DATE', 'RESOLVER', and 'RECORDS'. The 'REGISTRANT' and 'CONTROLLER' sections have 'Transfer' and 'Set' buttons respectively. The 'EXPIRATION DATE' section has a 'Remind Me' button. The 'RESOLVER' section has a 'Set' button. The 'RECORDS' section shows a table of addresses for different currencies: ETH, BTC, LTC, and DOGE. The 'ETH' record is set to the same address as the registrant, while the others are 'Not set'. The 'CONTENT' section shows the domain's content as `ipfs://bafybeibnb357ohh5ydkvmaqho6ofdtcgvyufxqvfd7icftoyxn1olpdnam`.

PD-14.1 Supported formats & prices

	Main domain	Subdomains Free, can be re-sold
1-2 character Not supported		
3 character \$640/year	tre.eth	a.b.c.d.e.f.tre.eth
4 character \$160/year	four.eth	a.b.c.d.e.f.four.eth
5 or more characters \$5/year	fiver.eth	a.b.c.d.e.f.fiver.eth

Every change is an Ethereum transaction and requires gas
